

PUSHING THE LIMITS IN MASS SPECTROMETRY

# AB SCIEX SelexION™ Technology

A NEW DIMENSION IN SELECTIVITY

## Ion mobility spectrometry for quantitative and qualitative applications

SelexION™ technology on the AB SCIEX Triple Quad™ 5500 and QTRAP® 5500 systems delivers a new dimension of selectivity and performance for any application requiring the separation of isobaric species, isolation of challenging co-eluting contaminants and reduction of high background noise.
